

BUSINESS: ACCOUNTING (A.S.)

HEGIS: 5002

SUNY CODE: 1129

The A.S. degree in Accounting will prepare students for transfer to a four-year school. Accountants collect and analyze financial data, design and maintain accounting systems, prepare budgets, financial statements and tax returns, and conduct audits.

Career Opportunities/Transfer Information

HCCC graduates may transfer as juniors to schools such as SUNYIT, Utica College, Franklin University, and other public and private institutions. The A.S. degree in Accounting features more liberal arts and science courses than the A.A.S. degree in Accounting and meets SUNY general education requirements. The demand for accounting graduates is expected to increase as the economy grows. In addition to careers in public accounting, private industry, and the not-for-profit sector, accountants can specialize in other related fields such as management, consulting, financial planning and taxation.
